

About the Baldrige Performance Excellence Program

Created by Congress in 1987, the Baldrige Program helps organizations improve and succeed in the competitive global marketplace. It is the only public-private partnership and Presidential award program dedicated to improving U.S. organizations. In collaboration with the greater Baldrige community, the Baldrige Program offers a systems approach to organizational excellence, award-winning leadership development, self-assessment tools, organizational assessments by teams of trained experts, presentations and workshops on how to improve, and conferences and other events that showcase best management practices.

Granite State Quality Council

The Alliance for Performance Excellence (www.baldrigepe.org/alliance/), a network of regional, state, and local Baldrige-based programs, serves organizations from all industry sectors and nearly all U.S. states. These programs rely on the Baldrige Program for the Baldrige Excellence Framework and other resources but operate without financial support from the Baldrige Program. Founded in 1992, the Granite State Quality Council (GSQC; www.gsqc.com/) is New Hampshire's nonprofit resource for organizational performance excellence. The GSQC serves organizations of all sizes and in every sector of the economy. Services include coaching and training, networking and best-practice sharing, and assessment and recognition. As part of the larger Baldrige community, the GSQC provides access to world-class practices that can be adapted to fit the needs of any business, health care organization, school, or government agency.
