## So... what changed?

of Healthcare Management Education

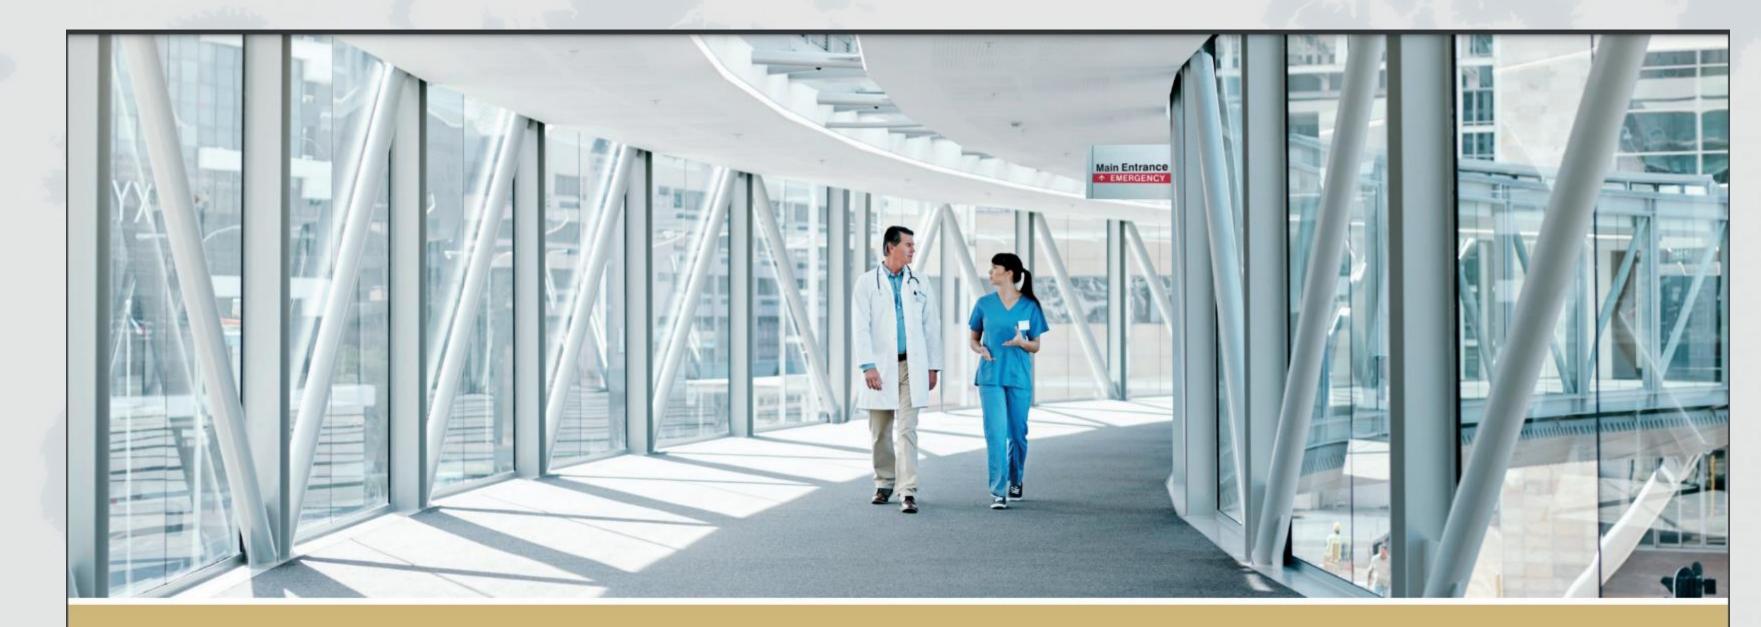

# CAHME: Global Survey of Academic Leaders in Healthcare Management Education April 2021

### **CU Denver's Health Administration Research Consortium**

### Inaugural Health Systems' Climate Study 2021

Jiban Khuntia, Xue Ning, Naser Shekarian and Rulon Stacey

# Leading Through Crisis Is an Integral Component of Leadership

### **Inaugural Health Systems' Climate Study 2021**

The new normal for health systems is aspirational but burdened with complex challenges and disruptions.

More than

of CEOs are concerned about the challenges in the new normal.

Only

of CEOs believe the new normal is presenting opportunities.

This climate study is the outcome of survey data reported by 135 Health System CEOs, representing \$0.3 trillion in revenues and 1.1 million employees across the United States.

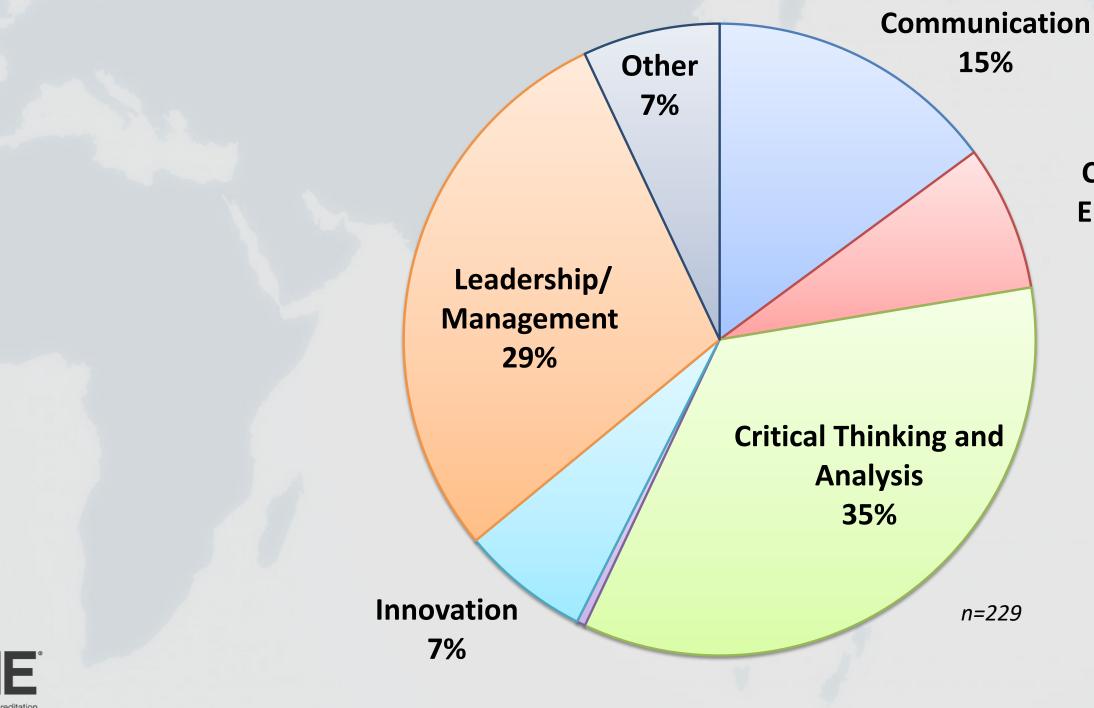

of CEOs believe the new normal increases their opportunities to identify new revenue growth.

# Worldwide, critical thinking & analysis, and leadership/management were considered the most important competencies in the pandemic.

**Most Important Competency Domains** 

Community Engagement 7%

# The most important competencies in the pandemic

- Demonstrates emotional stability when faced with extreme job demands
- Is able to pivot priorities rapidly
- Is willing to adapt to new ways of doing things
- Uses self-evaluation as a tool to improve continuously
- Shows resilience
- Understands how to support the well-being of those he or she leads
- Models healthy work habits
- Effectively communicates internal and external challenges and priorities
- Inspires and supports others to strive for excellence

BUSINESS SCHOOL EALTH ADMINISTRATION

### Three aspects of the strategies that leaders will need to address.

- The pandemic propelled the transformative and disruptive powers of digitalization to the forefront.
- Patients demanded personal care that was not available broadly. A Surge in consumerism was seen.
- Retaining skilled staff and a talented workforce will be a growing problem.

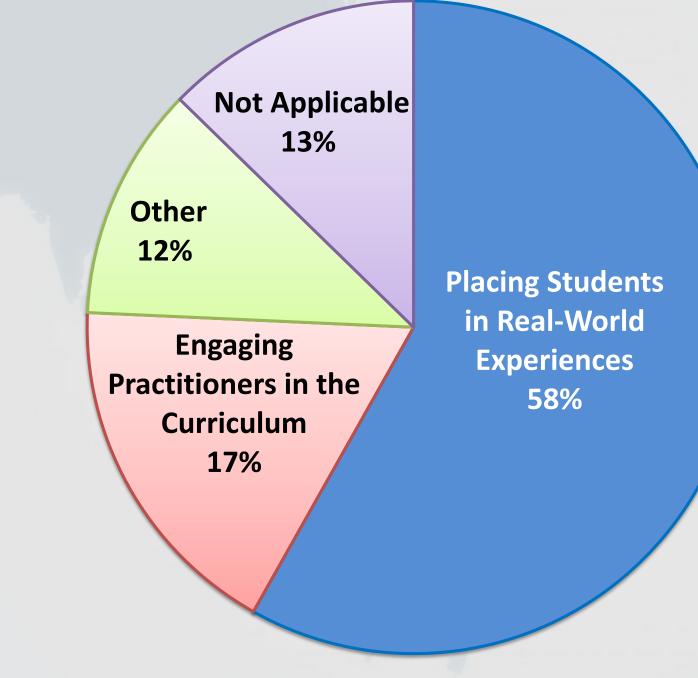

# 58% of programs were challenged in placing students in experiential learning.

### **Experiential Learning Opportunity Challenges Due to COVID-19**

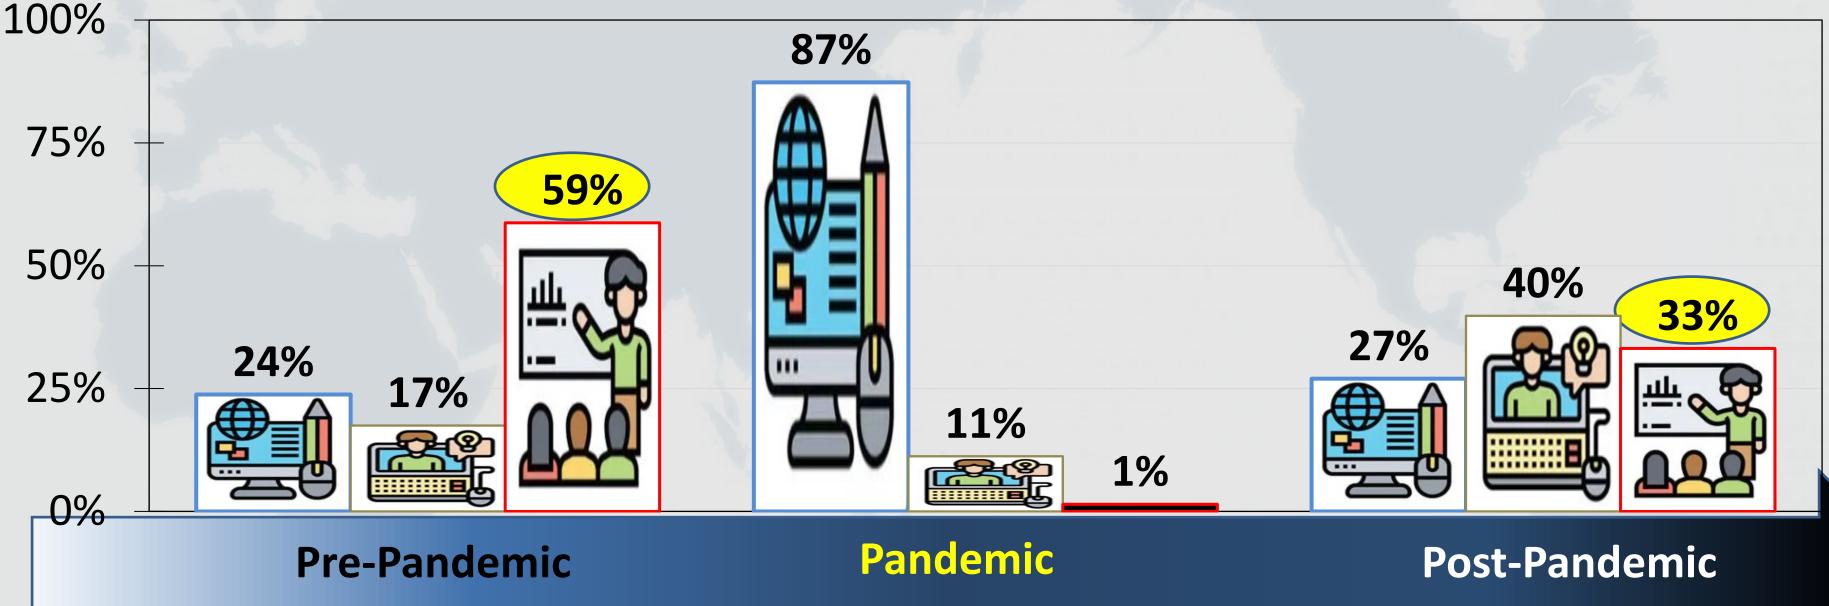

n=229

# Pre-pandemic, 59% of programs were traditional face-to-face. Postpandemic, programs expect to be evenly split between modalities.

**Class Modality Comparison** Offered Mostly Online, Hybrid, Mostly In Person

# This may actually help those students adjust to the new normal.

- 85% of health system CEOS believe that digital technologies are helping to streamline workflows and business processes
- 80% confirm that digital technologies enable data-driven administrative and clinical decision making.
- 75% plan to re-engineer significant business function
- 68% agree that digital technologies would play a significant role in rendering higher customer-oriented services
- 61% believe that digital technologies would help to increase operating efficiency
- 55% see the value of digital technology and creating innovation opportunities within and between different organizations enter

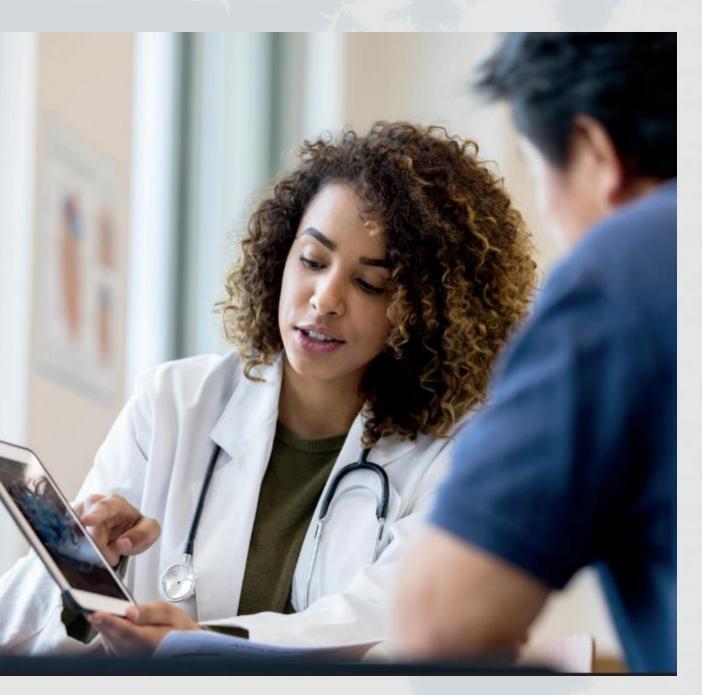

# How are leaders posed to face the new normal in the post-COVID-19 pandemic situation?

- 80% of health system CEO's believe their chances to stay current on technology will rely primarily upon
  - CEO serving as the organization champion for digital investments
  - Cohesive and meaningful organizational digital strategy including financial and clinical targets
- 78% believe that defining and measuring success measures but also lead to improved chances for digital investment
- 72% believe that a clear vision of digital investments competitive advantage will differentiate their organization

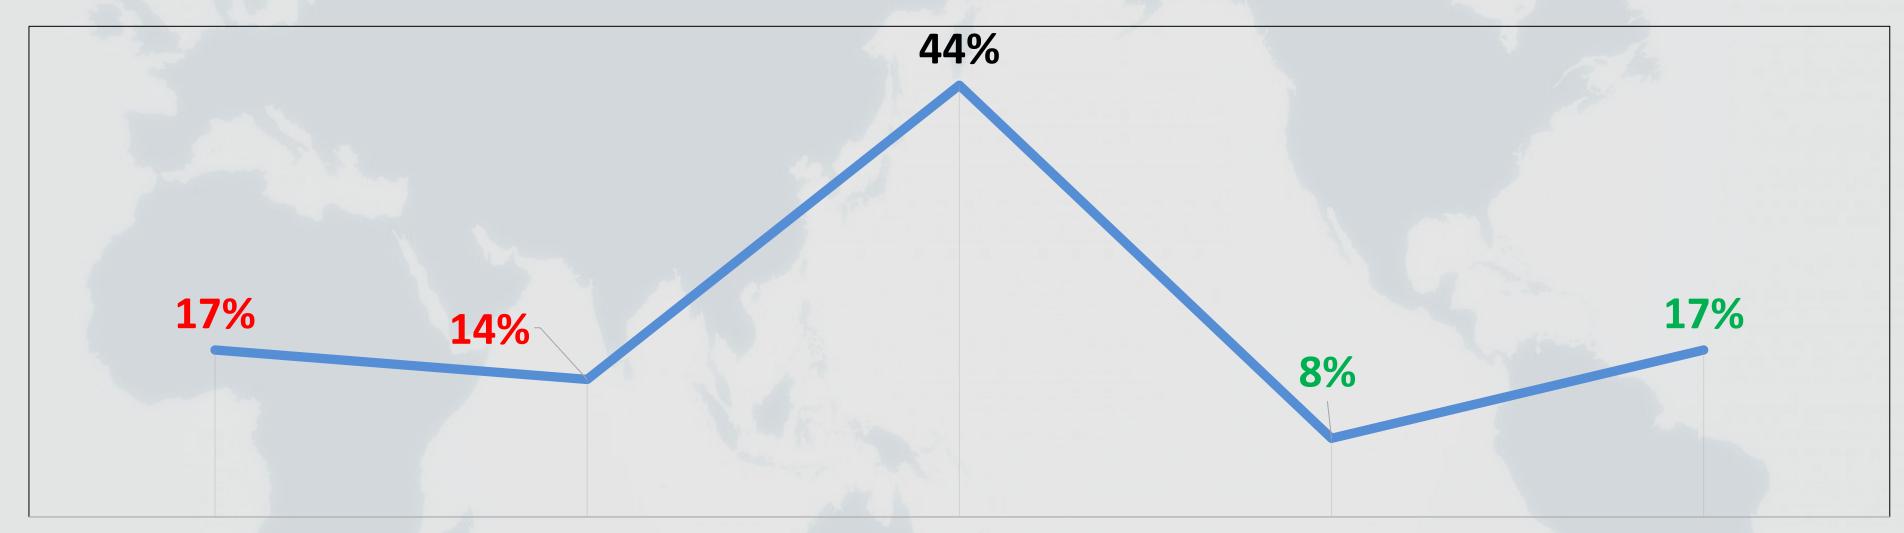

# Worldwide 31% of programs decreased students in their program, 44% stayed the same, and 25% increased.

**Average Change in Number of Students in a Program During COVID-19** 

**Decreased More Than Decreased Less Than 10% Increased Less Than 10% No Change** 10%

**Increased More Than** 10%

# At the same time, the health sector is poised for major disruption.

Assets management due to the adoption of work from home and virtual care models

Insurance and reimbursement models

Home health deliveries

Health service models delivered digitally

Health tourism

30%

#### **84**%

### **65**%

# With a need to adapt the future focus of health systems

Viability and crisis response strategies

Digital transformation and relevant growth

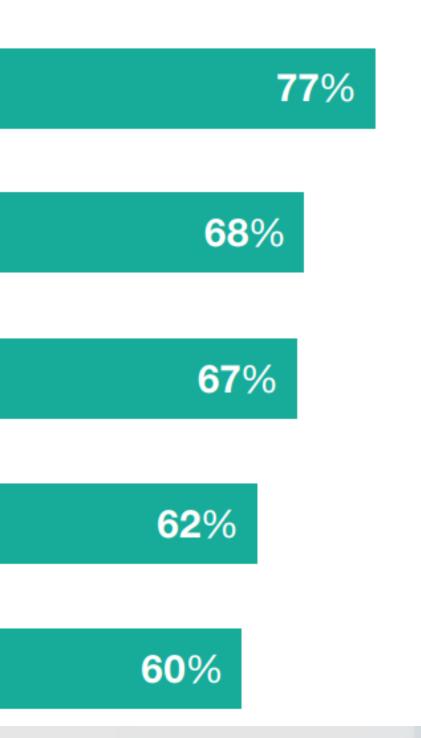

Sustainability and carbon reductions

Partnerships and alliances

Redesign of supply chain

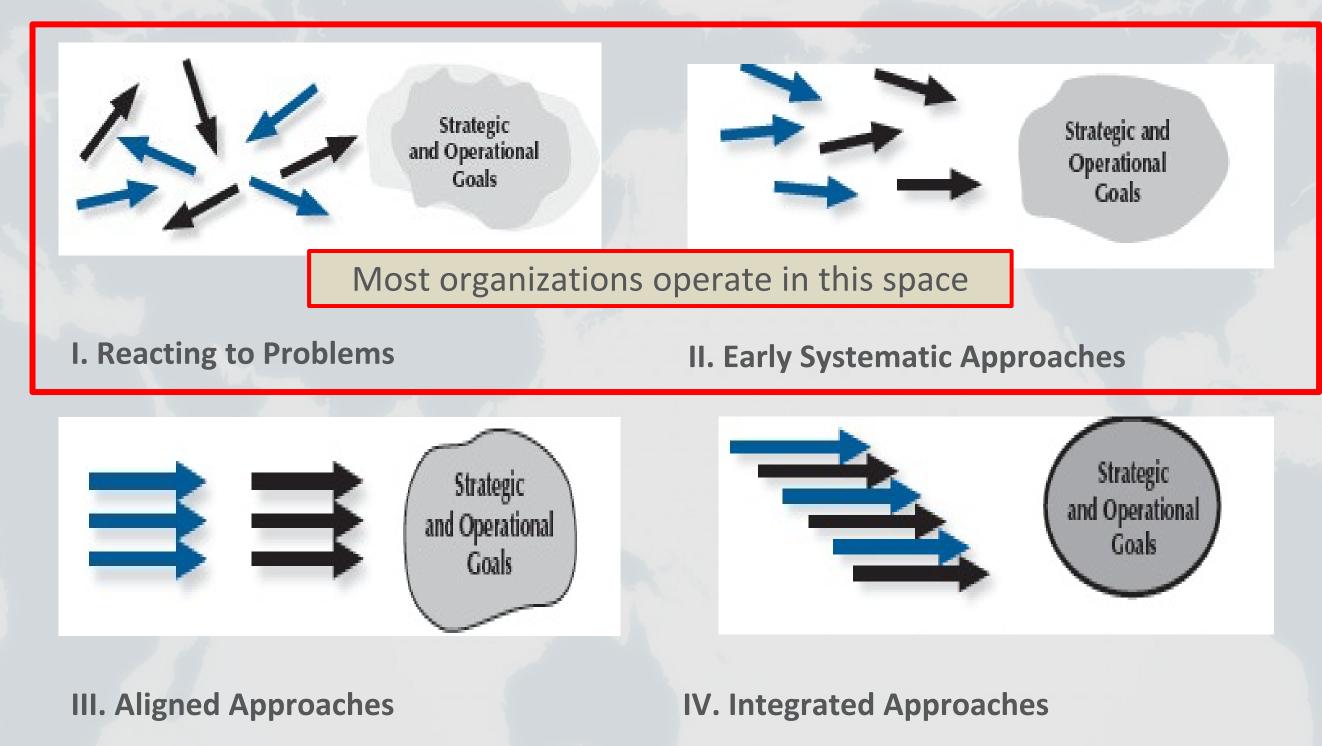

#### **85**%

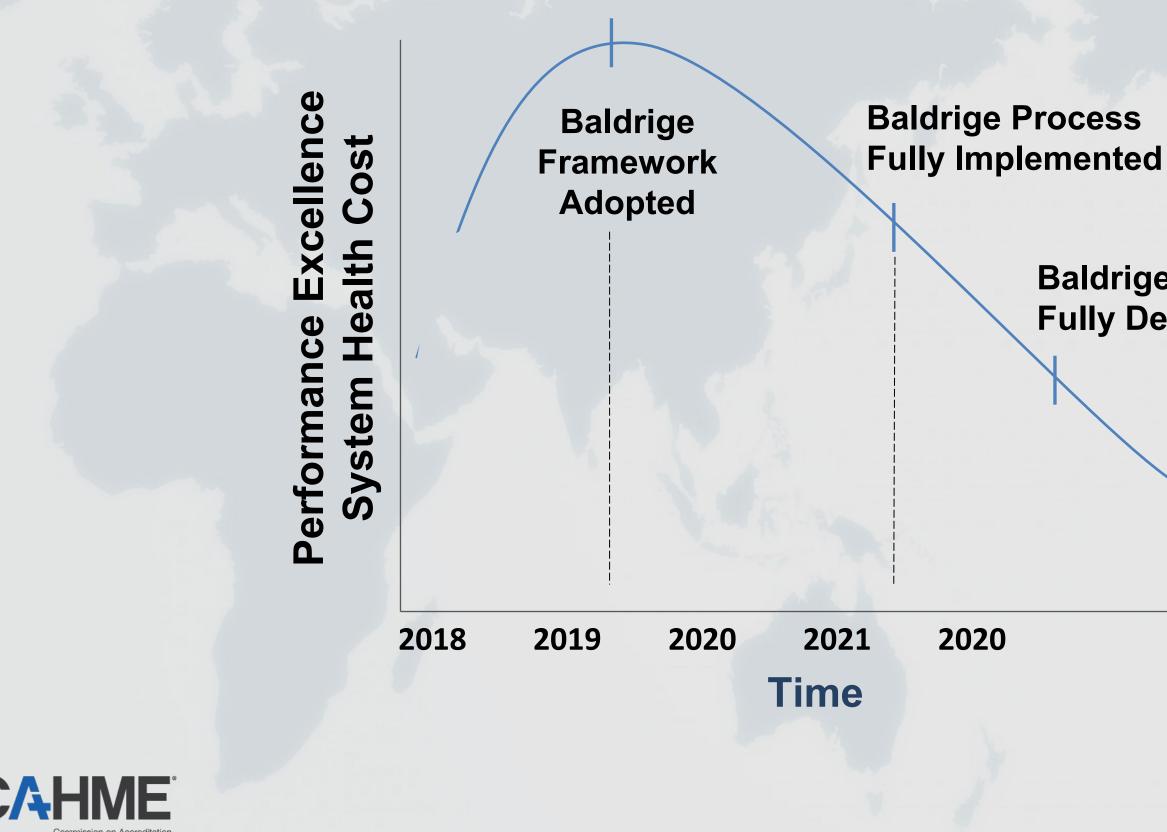

# Take steps toward mature, integrated approaches

## And build performance excellence on system capabilities

**Baldrige Process Fully Deployed** 

# The Baldrige process provides a framework to guide transformative movement post COVID-19...

**Progress and Assessment Score** 

Stage 1 "Projects"

Stage 0

"Reaction"

**Regulatory and** 

external

only

compliance

Project mentality, characterized by individual tactical improvement activities Stage 2 "Traction"

Alignment of projects to strategy; focus on leadership and management processes, systems approach Stage 3 *"Integration"* 

Integrate across key leadership and management Processes and key operational processes

Transformation start

Baldrige Worthy

OR: Give up on the process when managed as a delegated project

Time ~ 3 – 10 Years

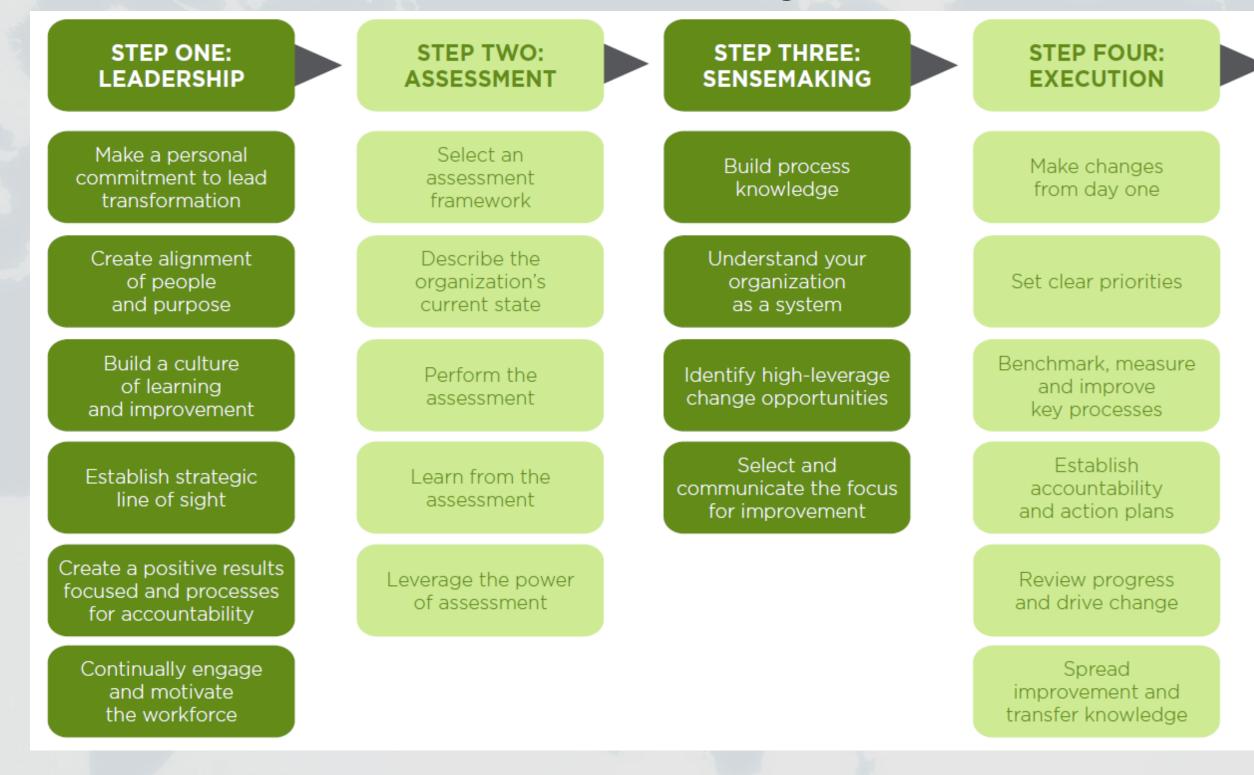

Stage 4 "Sustain" **Continued improvement** as methodologies are embedded into the organization's culture \* OR: **Decline**, as the organization loses discipline and changes course

## ...using a LASER focus to transform processes.

#### **Performance Strategies LASER Process**

#### **STEP FIVE:** RESULTS

Focus on results most important to create value

Understand your performance levels and trends

Understand how your performance compares to others' results

Understand your performance for critical business segments

> Plan and act on your results
